## BRENDOLA (VI)

Brendola is a door of access to the Berici Hills, an area that has enormous potential for tourism because of the history, to the rural landscape and the rustic, the natural environment and the possibility to practice many sports. We believe that Brendola is also a Pearl in Veneto, a pleasant place that can attract travelers, interested in learning from multiple perspectives, our territory and the province of Vicenza.

Inside Multi-purpose gym, Brendola (VI)

Brendola is a green oasis in the midst of urbanized areas. The surrounding territory is rich and varied, and the resulting products are genuine and of high quality. Viticulture occupies a prominent place in the agricultural sector of Brendola, involving about 45% of all cultivated land. With its great biological variety, Brendola is home to many varieties of grape, native of the Berici hills. The Garganega, the white grape present in greatest amount, is a local delicacy, from which we obtain different varieties of wine. Other white wines are typical to the Tai Bianco, Pinot Bianco, and Sauvignon. Among the red remember the Red Tai, the Carmenère, Cabernet Franc and Sauvignon, and Merlot.
